

Boards for educational programmes

Board for educational programme is an expert body designed to improve quality of education in St. Petersburg State University. The Board comprises about 90% of independent experts, including foreign consuls and ambassadors, representatives of state bodies, leading business experts, outstanding academics and artistic intellectuals. The Board puts forward recommendations on the form of entrance examinations, final examinations, programme curriculum, staff requirements, as well as on professional training and research topics.

Board meeting is an unconventional platform for an open dialogue with potential employers.
